

consultation with a midwife pdf

A midwife is a health professional specializing in pregnancy, childbirth, postpartum, women's sexual and reproductive health (including annual gynecological exams, family planning, menopausal care and others), and newborn care. Their education and training in midwifery equips them to recognise the variations of normal progress of labor, and understand how to deal with deviations from normal.

Midwife - Wikipedia

In the United States, a certified nurse-midwife (CNM) is a midwife who exceeds the International Confederation of Midwives essential competencies for a midwife and is also an advanced practice registered nurse having completed registered nursing and midwifery education. CNMs provide care of women across their lifespan, including pregnancy and the postpartum period, and well woman care and ...

Currently skill mix in primary care includes a number of different non-physician health professionals summarized in Table 1a, Table 1b. While there appears to be general agreement that transformation to multidisciplinary teams is necessary, the approaches to implementing primary care teams are highly varied (Bodenheimer and Laing, 2007, Nelson et al., 2010, Smith et al., 2010).

Skill mix, roles and remuneration in the primary care

The World Health Organization (WHO) is building a better future for people everywhere. Health lays the foundation for vibrant and productive communities, stronger economies, safer nations and a better world. Our work touches lives around the world every day â€“ often in invisible ways.
