The argument parsing has some strange rules for escaping characters, it's the " character combination in the arguments that causes the problem. This is a problem with the CommandLineToArgvW method in Windows. See for example the article Commandline args ending in " are subject to CommandLineToArgvW whackiness. Get the unparsed command line and parse it to get the parameters as expected:

Volleyball is a team sport in which two teams of six players are separated by a net. Each team tries to score points by grounding a ball on the other team's court under organized rules. It has been a part of the official program of the Summer Olympic Games since 1964.. The complete rules are extensive, but simply, play proceeds as follows: a player on one of the teams begins a 'rally' by ...
