Preserving Public Trust: Accreditation and Human Research Participant Protection Programs considers the possible impact of creating an accreditation system to raise the performance of local protection mechanisms. In the United States, the system for human research participant protections has centered on the Institutional Review Board (IRB); however, this report envisions a broader system with multiple functional elements.

to serve the investing public, and Deloitte member firms' ability to retain and attract clients. Standards for independence are shaped by legislation, regulations, professional guidance, and public expectations. Maintaining independence, therefore, is both a matter of compliance with rules and regulations and a matter of appearance.
